The pebbled texture, appealing to the eye as well as underfoot, is a sophisticated foundation for our Artisanal and Luxe collections of bedding. Woven from wool to impart warmth with a hint of viscose for luxurious silky luster, and offered in shades of grey or creamy latte it is also an elegant base for any room neutral or not. **FEATURES & BENEFITS:** Durable construction; lightweight, low profile, reversible; rougher hand and natural earthen charm. **WHERE TO USE:** Suitable for dining rooms, living rooms and master bedrooms. Please note: It is common for wool rugs to shed, as they are created from natural fibers that form long strands of material that are then hand-knotted to create delightfully soft and durable area rugs. Due to the sheared pile, loose fibers will eventually work their way to the surface. If your wool area rug starts shedding, this is normal. Just trim any tufts of wool that appear with a sharp pair of scissors; do not pull the fibers. Even though shedding does occur –and is not preventable–there are steps you can take to help maintain the shedding of your wool rug. Crafted by artisans committed to fair-labor practices. 58% Wool/42% Viscose Regular vacuuming and the occasional gentle shake should keep your rug in shipshape condition. For wool rugs, we recommend professional cleaning only. Made in India.
