

Nova 39" X 87" Dining Table

HSLJ4011

Sku: HSLJ4011

Dimensions: 39" W x 87" L x 29" H

Nova 39" x 87" Duratek Teak Dining Table
with faux concrete top HPL.

The Nova collection is modern and very comfortable. With its asymmetrical lines, this collection will add the final touch to your backyard living area. The weathered teak finish adds to the contemporary lines. Premium teak is used with a DURATEK treatment that protects the wood against aging and various stains. The teak is vigorously brushed to obtain a textured and seasoned finish. Then, after a first coat of waterproofing primer, five coats of grey finish are applied. This process protects the wood against weather, UVs and various stains such as wine, coffee or oil. The grey colour we have chosen emphasizes our collection. Over the time the finish will fade away and wear off and will expose the raw teak. Maintenance: Do not oil. Clean with soapy water. High pressure decorative laminates (HPL), consisting of a surface of decorative paper(s) impregnated with amino plastic resins and a core made of layers of kraft paper impregnated with phenolic thermosetting resins. All the layers are bonded together with a simultaneous application of heat and high specific pressure to obtain a homogeneous non-porous material with increased density. Easy maintenance and cleaning, no special maintenance required. UV, stain and scratch resistance. To keep frames clean we recommend using our patio furniture covers when furniture is not in use.
