

Pergola 8' X 8' X 8' H

Width: 96" (243.8 cm)
Depth: 96" (243.8 cm)
Height: 96" (243.8 cm)

Our 'Pergola' is the ideal solution for any shade requirement. Flexible and versatile, the all-aluminum 4" x 4" post and cross beam construction has been professionally engineered to allow for an infinite number of configurations. Create smaller shade zones with this 8' x 8' pergola or scale it up to cover a more substantial footprint. Shown here with 1" x 3" aluminum purlins, a variety of inset roof slat sizes and materials are available to choose from. The Pergola incorporates our proprietary Konnectr System to ensure that each design is as fluid as possible, while still meeting the requisite load and wind analysis. The Hauser Konnectr System, consisting of custom engineered Konnectr Blocks and stainless steel countersunk hardware, ensures that each beam and column connection is seamless, strong and virtually undetectable. Built-in surface mount plates with concealed covers provide the finishing element to secure the connection. The core frame has been designed to accept a variety of lighting, charging and heat options. Create your own custom size and shape.
