

Column Base With Electrical Routing

GS-591-TBE Column Base

Width: 30" (76.2 cm)

Depth: 24" (61.0 cm)

Height: 30" (76.2 cm)

The Column table base is routed to accommodate electrical wiring to create mobile charging stations. Shown here with our 'Java Age' powdercoat finish, and a 24" x 30" plastic laminate table top, with banded edging. Available in any HauserKote powdercoat finish, and a variety of table top finishes. Bar and counter height are also available.

For indoor use only
