

Tower Security Waste Receptacle

PS-729-09-AL-CWR - Tower Security Waste Receptacle

Width: 26" (66.0 cm)
Depth: 28" (71.1 cm)
Height: 47.75" (121.3 cm)

Our Tower Security Waste Receptacle was designed to specifically address the issue of security threats associated with densely populated, high-traffic areas. Offering maximum visibility, while maintaining the structural integrity necessary to withstand the rigors of public use. Featuring an all-welded, powdercoated aluminum construction, lockable side door entry, and interior trash bag rings for clear plastic bags. Shown here in our 'Silver Age' powdercoat finish. Available in a variety of sizes, and waste/recycle stream options.
