

22" Skyline HPL Planter

PS-9200-AL-WD5-22x22-24 - Skyline HPL Planter

Our Skyline HPL Planter features an all welded aluminum, powdercoated frame, and is shown here in our 'Pewter' powdercoat finish, with our Hauser HPL accent panels. Hauser HPL (High-Pressure Laminate) is produced in a thermosetting press under very high temperature and pressure. This process creates a thin, yet durable panel that can be used in an endless number of outdoor furniture applications. These exterior grade panels are extremely robust, with excellent protection against weather, UV radiation, impact and scratching; all while exceeding North American fire requirements. This durability and resilience makes Hauser HPL the ideal option for any exterior environment. Available in a variety of sizes and finishes, freestanding or bolt-down.

Width: 22" (55.9 cm)
Depth: 22" (55.9 cm)
Height: 24" (61.0 cm)
