

Trellis, 11.5' X 58' X 9' H

ST05-IC-C15VO-11.5x58-9 - Trellis

Width: 694" (1762.8 cm)

Depth: 140" (355.6 cm)

Height: 110" (279.4 cm)

A modern take on a traditional design, our 'Trellis' offers the versatility to enhance any outdoor space. The core frame consists of heavy-duty 4" x 4" aluminum columns and cross beams, professionally engineered to withstand the demands of an exterior commercial environment. Add to the core frame vertically oriented, overhanging 1.5" x 5.5" sealed Cedar purlins chamfered at each end to complete the design. Also available are a selection of overhanging or underhanging purlins. The Trellis incorporates our proprietary Konnectr System to ensure that each design is as fluid as possible, while still meeting the requisite load and wind analysis. Custom engineered Konnectr Blocks and stainless steel countersunk hardware, ensure that each beam and column connection is seamless, strong and virtually undetectable. Built-in surface mount plates with decorative covers provide the finishing element. The frame has been designed to accept a variety of lighting, charging and heat options. Custom sizes are available.
