

Overlapping Grand Pergola, 23' X 22' X 10.5' H

ST12-OL-AW25V-23x22-10.5-10 - Grand Pergola

Imagination is the only limitation when it comes to designing a custom shade structure. These overlapping Grand Pergolas are no exception. Heavy-duty, all-aluminum 6" x 6" columns and cross beams are placed in a 'T' configuration to form two overlapping Grand Pergolas. Our professionally engineered proprietary Konnectr System ensures that this design is as fluid as possible, while still meeting the requisite load and wind analysis. Contrasting vertically oriented 2" x 5" AlumiWOOD roof purlins cascading down into side privacy panels complete this impressive structure.

Width: 264" (670.6 cm)
Depth: 276" (701.0 cm)
Height: 126" (320.0 cm)
