The Parson's chair is specially crafted with you in mind with an emphasis on slipcovers. The unique slipcover system allows you to change your cover whenever you want. Whether it be a little dirty, a new season, or you are just bored with your current look, we have got you covered. We believe in quality and in order to obtain the ultimate piece of furniture you have to start with the frame. The frames are constructed of 7/8" hardwood. All wood joints are interlocked and glued. Then we glue and nail corner blocks to reinforce the joint. This exceptional seat offers the best durability available in the Upholstered Furniture Industry. The Fabrics are carefully selected to give our furniture a very casual appeal and a softness like no other. The majority of our fabrics are pre-washed for added softness and for the ability of machine washing. We do however recommend Dry Cleaning to increase the life of your slipcover. We have a wide variety of soft cotton twills, cotton prints, great linens, plush velvets, and cuddly chenilles.
