[Ship to your home or free pickup in store](#)

Mini checks of natural appear to float above a space dyed ground of tonal grays giving a calm and pleasant effect. Blended wool and viscose hand knotted carpet has a velvety pile and silky sheen perfect for low traffic and barefoot areas of your home. **FEATURES & BENEFITS:** Eye-catching design, soft low pile. **WHERE TO USE:** Low-traffic areas and barefoot areas of the home. Please note: It is common for wool rugs to shed, as they are created from natural fibers that form long strands of material that are then hand-knotted to create delightfully soft and durable area rugs. Due to the sheared pile, loose fibers will eventually work their way to the surface. If your wool area rug starts shedding, this is normal. Just trim any tufts of wool that appear with a sharp pair of scissors; do not pull the fibers. Even though shedding does occur –and is not preventable–there are steps you can take to help maintain the shedding of your wool rug. Crafted by artisans committed to fair-labor practices. 57% Wool/43% Viscose Regular vacuuming and the occasional gentle shake should keep your rug in shipshape condition. For viscose rugs, we recommend professional cleaning only. Avoid exposure of any kind, as this may cause permanent staining. Best suited for low-traffic, gently used rooms only. Not suitable for homes with children or pets. Made in India.
