Jardin Aluminum Dining Side Chair with space grey finish and light grey sling.

Jardin is aluminum powder coated frame. Aluminum requires no maintenance and doesn't corrode. It won't leave traces of rust on your deck. The fabric is Batyline that is a durable fabric made out of polyester thread with composite girdle. Heat-welded seams to give the sling greater resistance and a longer life. To clean use wet cloth or soapy water. It should not be cleaned with aggressive commercial cleaners, as it can damage the weave and makeup of the fabric.
