

Pergola, 16.5' X 19' X 8' H

ST10-L-A13H-16.5X19-8 - Pergola

Our 'Pergola' is the ideal solution for any shade requirement. Flexible and versatile, the all-aluminum 4" x 4" post and cross beam construction has been professionally engineered to allow for an infinite number of configurations. Designed specifically for modular construction, create different shapes and sizes like this 'L' shaped pergola with 1" x 3" aluminum purlins. Choose from a variety of inset roof slat sizes and materials. The Pergola incorporates our proprietary Konnectr System to ensure that each design is as fluid as possible, while still meeting the requisite load and wind analysis. The Hauser Konnectr System, consisting of custom engineered Konnectr Blocks and stainless steel countersunk hardware, ensures that each beam and column connection is seamless, strong and virtually undetectable. Built-in surface mount plates with concealed covers provide the finishing element to secure the connection. The core frame has been designed to accept a variety of lighting, charging and heat options. Create your own custom size and shape.

Width: 231" (586.7 cm)
Depth: 200" (508.0 cm)
Height: 96" (243.8 cm)
